Agile Product Managers and Product Owners Training | 280 Group

In the scope of ICAgile's learning programs, Product Management differs from Product Ownership in that Product Management takes a more strategic and external-facing view of the product life cycle while product ownership focuses more on collaboration within the organization to build a product or suite of products.

Product Management - ICAgile

Both product owners (POs) and product managers (PMs) have "product" in their titles. Both roles connect people to the customer to ensure we're building the right thing. Both roles rely on data to inform decisions and spot trends by correlating that data to everything that's going on across the organization. Both roles manage backlogs.
