Basic Life Support Training Manual

Basic Life Support (BLS) skills allow healthcare providers, students, public safety personnel and others with a duty to respond to provide assistance to someone during a health crisis. The Red Cross Store offers the American Red Cross Basic Life Support Participant's Manual for purchase (formerly known as the BLS Provider Handbook). Throughout this manual, you'll find emergency care procedures outlined in detail.

BLS Participant's Manual | Read the BLS Handbook | Red Cross

Basic Life Support (BLS) for healthcare professionals trains participants to promptly recognize several life-threatening emergencies, give high-quality CPR, deliver appropriate ventilations and provide early use of an AED.

Basic Life Support (BLS) Provider Manual

Basic Life Support, or BLS, generally refers to the type of care that first-responders, healthcare providers and public safety professionals provide to anyone who is experiencing cardiac arrest, respiratory distress or an obstructed airway. It requires knowledge and skills in cardiopulmonary resuscitation (CPR), using automated external defibrillators (AED) and relieving airway obstructions in patients of every age.

What is BLS? | Basic Life Support | Red Cross
