Cameron D Type Annular Bop

Cameron DL high-pressure annular BOPs allow reliable performance in a shorter height and lighter weight than comparable annular BOPs. The unique design of our DL BOP does not require wellbore assist. The annular can close on drillpipe or large tubulars without reducing operating pressure, which minimizes risk of indentation or damage to casing.

Field-proven designs to fit your desired drilling applications. Annular BOPs can contain wellbore pressure and seal the well when required by closing on the pipe in the borehole. They are equally effective if there is no pipe in the wellbore. Cameron provides designs for onshore, offshore, and subsea applications.
