### Cummins Isx Stop Engine Light

I have a 2010 Prostar with a Cummins ISX engine. I've been having an issue where if I'm driving with a load, as I increase my speed and get up between 50-60 mph, my yellow engine warning light comes on. As I continue to drive and increase the speed between 65-70, the red light comes on. I have to pull over and shut the truck off.

### Red Stop Engine Light - Printable Version

F750 with a cummins engine has a stop engine light on. The manual says to take it to the dealer and they will get that light off. The light came on because the operators ignored the particulet filter light that requires mechanics to put it in re-generation.

### F750 with a cummins engine has a stop engine light on. The ...

Stop Engine Light means the ECU has detected an aberration that if continued would do damage to the engine; next level above that of "warning" is the engine shutting itself down. That the light disappears is good and probably means the trouble detected is very intermittent.

### STOP ENGINE LIGHT...now what??? - Page 2 - IRV2 Forums

Stop Engine Lamp with Flashing DEF Lamp and Solid Check Engine Lamp Indicates that DEF level is critically low and fuel tank has been refilled without refilling DEF tank, or engine has idled for an hour or been shut down. Vehicle will be limited to a speed of 5 mph. Refill DEF tank with correct type of DEF.

### Engine Lamp Identification Guide. - Cummins Inc.

The Stop engine light indicates a major problem and the unit might run but could be underpowered. There are many different reason the stop engine light could come on and the only way to know is to find a shop or mobile service that has the cummins software to hook up to your data port and pull codes, once you have a code a better understanding of the issue can be determined.
