Globalization and Fragmentation: International Relations ...

The fragmentation of public international law is a long-observed phenomenon that demonstrates uneven normative and institutional development and evolution in inter-state relations. Separate legal norms and institutions have developed largely independently from one another, often instigated by non-identical groupings of states and in response to specific functional issues.

Fragmentation - International Law - Oxford Bibliographies

Faced with the contemporary explosion of legal norms, increasing normative specificity, the proliferation of international organizations and the multiplication of international tribunals, some have highlighted the risk of "fragmentation" of international law into a more or less coherent set of "normative islands" constituted by partial, autonomous and perhaps even "self-contained" legal sub-systems.

Unity, Diversity and the Fragmentation of International ...

The world today, Benjamin Barber points out, is "falling precipitantly apart and coming reluctantly together at the very same moment." While states from Canada to India are threatened with breakup due to fractious nationalist impulses of their peoples, the power of technology and markets is forcing ever-tighter economic integration worldwide.

The fragmentation and consolidation of international ...

As we approach the end of the twentieth century, a widespread interest in globalization is thought to be changing all economic, political, and cultural life. Ian Clark takes globalization--and its opposite, fragmentation--as the organizing theme for a grand retrospective of twentieth century international history.
