What to do if the default "456" password does not work

...

I have a Polycom SoundPoint IP 335 that I use with my RingCentral service. It's working fine. However if I try and log into the control panel for the phone, the phone goes off line and I have to power cycle the phone to get it back on line. I believe it is actually logging in successfully, but that the phone is going off line once I'm logged in.
