Macquarie University - Speech

The Rainbow is a novel by British author D. H. Lawrence, first published by Methuen & Co. in 1915. It follows three generations of the Brangwen family living in Nottinghamshire, particularly focusing on the individual's struggle to growth and fulfilment within the confining strictures of English social life. Lawrence's 1920 novel Women in Love is a sequel to The Rainbow

circumnavigation of the landmass that is now known as Australia. He is also credited as being the first person to utilise the name Australia to describe the entirety of that continent including Van Diemen's Land, a title he regarded as being "more agreeable to the ear ...

Matthew Flinders - Wikipedia

The actual rainbow of colors seen by an observer depends on the myriad of rays being refracted and reflected toward the observer's eyes from numerous drops of water. The effect is most spectacular when the background is dark, as in stormy weather, but can also be observed in waterfalls and lawn sprinklers.
